Servant 1 : What do you think is wrong with her today? She seems a bit shaky and she is shouting a lot more than usual.

- I like the way you have remembered to have no speech marks in the speech
- Also I like the way you have put the way the characters are saying the speech. The stage directions as well are brilliant.
- Your next step is to add a little more to your speech and your stage directions. Also try and add some adjective to your play script. Apart from that Amy a really good play script.
